Cut The Weeds.

THE recent and frequent showers of rain have caused vegetation to grow luxuriantly, and of course the weeds, too, have sprung up thick and rank. In this year of promise and plenty, when everything is growing with the minimum of care and attention, we are prone to neglect the war on the weeds. Our beautiful woodlands, pastures, lawns and roads are growing up with weeds. This should not be cut them out and sow bluegrass to fatten your cattle. Exterminate the noxious weeds ere they germinate seeds a thousand fold to curse you and annoy your neighbor. The wet days when other work can not be attended to, such days are good for making war on the weeds. Don't put it off till to-morrow. Keep your place free from weeds. Your children and your children's children will bless you, and visitors will indeed say this bluegrass country is the prettiest land extant. K.

That Endless Chain.

The endless chain of letters started by Miss Natalie Schenck, of Babylon, Long Island, for the benefit of the Ice Plant Auxiliary of the Red Cross Society, and which has caused considerable comment in the Eastern press, has reached Paris. Several of the letters have been received here. The request contained in the letters has been complied with by some, out the majority of the letters have found a permanent resting place in the waste basket. Miss Schenck started the chain innocently, little dreaming of the extent to which the enterprise would develop.

The Associated Press has been called on to inform the world that it is desirable that the chain be broken. Miss Schenck has received between 20,000 and 30,000 letters already, and has realized some \$2,500. Letters were received from every State in the Union, from Mexico, Canada and Cuba. Mrs. McKinley, Mrs. Garfield and Levi P. Morton each sent a dime.

BIRTHS.

The Advent Of Our Future Men And Women.

To the wife of D. W. Peed, yesterday, a son.

THERE are eggs and eggs. The egg of yesterday looks, feels, measures and weighs like the egg of last month, but there's a difference in another respect, and that difference is worth money. Its just so with laundry. The difference between good work and poor is slight to the unpracticed discernment, but its a difference that counts every time. It's a difference that changes your laundry bill from an expense to an investment. We do good work—it will cost no more than poor work but its worth double the difference.
